

This Erasmus project truly helped me grow as a person in only a few days, having taught me how to adapt to new environments by broadening my horizons. I had a lot of fun spending time with new people from various countries and communicating with them, trying to see what we have in common. Therefore, I have discovered new cultures and made friends. Furthermore, I learnt a lot about media, a domain which I am interested in, through a set of interesting activities that were carefully chosen by the coordinators. (Mara Cărăbaș)

I am glad that despite these troubled times, this Erasmus experience exceeded my expectations. After a long period of time characterized by an extended lack of interaction, exchanging ideas, socializing and learning together with students from all over the world was indeed special. Discovering a new country, absorbing new perspectives and living in a different environment was eye-opening and pushed me out of my comfort zone. (Ștefania Luncan)

This Erasmus project was like a breath of fresh air. Without a doubt this connection between nations and people came as a surprise, especially after this break from all the interactions with the outside world. The dynamic of this week in Poland was amazing, not only I got to honestly click with some of the people involved but I also got some interesting information. Bottom line, with good and bad this project was and is one worth remembering ! (Mara Mile)

First of all, I would like to point that this Erasmus movement was overwhelming for me. I didn't expect this trip to Poland to be so exhilarating and fun. From this opportunity, I made some unshakable friendships with the students present from Italy, Turkey and Poland. At the same time I gained a new perspective on the culture, media and local attractions Poland has. This experience that enriched my skills in cooperation and communication made me realize how wonderful it is to participate in such a big project with so many amazing students and teachers that taught me how to see the media from a new perspective. (Thomas Palaghianu)

This Erasmus experience was the greatest action that had happened in high school, but also the first journey alone, without my parents, to a foreign country.

I'm so glad because I had the chance to take part in it.

In that week, we had a lot of enthralling activities and met a lot of welcoming people with whom I keep in touch even now, and I'm waiting for them in Romania.
(Iulia Țoca)

I'm so glad I participated in this Erasmus project because I would have never expected to actually make real connections with people I've never met before in such a short time, especially considering the language barrier. I loved trying out traditional foods and talking about the differences and similarities between our countries. I wish we wouldn't have caught the latest restrictions, but other than that it was a great experience. (Ruxandra Tripa)
